EXPERIENCE

IRISH TITAN 03/2016 – 02/2017
St. Louis Park, MN // *Lead Backend Developer*

- Integral part of discovery meetings with clients to identify site requirements
- Daily communication with clients to ensure the end goal of their project is on task and meeting the needs of their business
- Management of development team; monitor daily and weekly tasks
- Hiring and training of new developers to grow team and keep skills within the team current
- Worked with my team to resolve infrequent issues which arose between developers and clients
- Conduct regular peer code reviews to ensure best practice standards are met
- Develop cutting edge Magento 1 + 2 sites using the plan laid out between myself, my team and the client

IRISH TITAN 05/2014 – 03/2016
St. Louis Park, MN // *Senior Software Engineer*

- Helped develop and create 15 new Magento CE and EE sites as well as involved in the rescue of 5 Magento sites that needed help to the finish line
- Developed several extensions using the DRY principle that can quickly be deployed to any site.
- Collaborated with all department leads to come up with and efficient and effective process to perform technical site audits
- Use of GIT, merging branching and deployments
- Responsible for infrastructure optimization
- Integrate Wordpress into Magento builds
- Custom ERP integration with: Scribe, Great Plains, Vantage, Sage X3 using custom SOAP / REST API's that I helped build and implement

ASSOCIATION OF NATIONAL ADVERTISERS 01/2014 – 05/2014
New York, NY // *Web Design Consultant*

- Developed internal CRM utilizing Symfony Framework and MongoDB to increase speed and productivity
- Extensive research in design patterns and object oriented programming

ROTTENSTEIN LAW GROUP 04/2013 – 01/2014
New York, NY // *Web Developer*

- Created simple customizable WordPress themes to be deployed quickly across multiple sites
- Integrated full functionality across 50+ websites and Salesforce
- Designed and developed custom reporting using WordPress Gravity Forms API
